If I can Dream...

A Stourbridge Elvis fan's dream comes true as Vince Wright writes and publishes the Elvis Collector book he's been planning since the late 80s!

Long before the days of Blu ray, DVD, VHS, Betamax and Laser Disc, people watched home movies on 8mm film.

Having been collecting all the Elvis 8mm he could find since the 80s, Elvis fan Vince Wright put his two hobbies together This is the only book dedicated to collecting everything Elvis on 8mm.

"I was cataloguing all these films but hoping someone would write a book about it – I waited, they didn't, so I did."

"So many books list every variation of Elvis LP, CD or video but 8mm film barely gets a mention."

"This is perfect for the film buff, the Elvis collector or just those curious about Elvis on 8mm film."

"I have always loved film and was the projectionist for the Stourbridge Film Society for many years."

"It was essential that I made this now, as the film stock is deteriorating and will soon be forgotten for ever."

Vince waited his whole life for someone to catalogue the world of Elvis on 8mm in a book. He couldn't wait any longer and during the covid lockdown set out to find out just what was out there.

Introducing **Elvis, The Forgotten Format**, a glossy, colour, hardback book cataloguing the history of Elvis on 8mm film. With extensive research, items from his own collection and contributions from collectors around the world, this exciting new book will be **available from January 2023**.

This book includes many colour photos of all the legal releases and imports as well as the underground world of the 70s bootlegs. There are interviews with those who worked in the industry and a whole lot of nostalgic marketing material from around the world all of which makes this book perfect for any fan of Elvis or 8mm film. Also included is a foreword from Ged Jones of Derann Film Services.

Vince Wright has been a very active Elvis fan over the last 30 years and has:

- Acted as an Elvis Fan club branch leader
